

The amalgamation of the fast ferry services operated by Virtu Ferries Gozo and GozoFast Ferry with effect from the 1<sup>st</sup> July 2023 will be good news for tourists as well the residents of the Islands of Gozo and Malta. Up until now the two operators have run their own individual schedule of services but with an agreement between organisations to form a new company with a single schedule and ticketing service will mean a far better service for all with less complications for ticketing, berthing and a more rounded schedule to suite all.

Click the link below to access the new website and read more about the newly announced service. The MTA and other tourist services feel this will enhance the experience of travel between the two Islands and with improved connections at both ends of the journey will make the process more streamlined.

From the Gozo end the newly updated TD services from Mgarr Harbour with half hourly direct routes to Xlendi and Marsalforn will enable passengers to reach those destinations speedily.
